To whom it may concern

Our property purchased 4 yrs ago had a single storey dwelling but a covenant for a 2 storey, with honestay in mind and limited land left to build on a 2nd storey was the only option. When contacted Jon of Action Plans was keen, dug up original plans and after a visit and a few telephone convos we settled on a plan. When building we made a few amendments which Jon endorsed. We found Jon abliging, competent and he had a good grasp of building knowledge and manufacturers spec's and especially council requirements for a consent. We Shona & Neil have no hesitation in recommending Jon of Action Plans for a design 2 licence.

PS We have received many favourable comments on our renovations
