To whom it may concern

We engaged Jon Short to complete working drawings and documentation to support our building consent application to TCDC to construct a garage with a loft and bathroom. The original concept drawings were prepared by Linda Vugler and Jon took these drawings and turned them into detailed plans.

We were very impressed with Jon's knowledge of building techniques and materials and found him to be very helpful when specifying materials. He provided 3D CAD drawings which we could view at home and any changes we suggested were quickly attended to. Jon also provided excellent support and advice with respect to our application for Resource Consent.

We should also note that our builders commented that his plans were detailed and clear which made the job easier for them.

Judy and I would have no hesitation in using Jon again.

Kind Regards

A handwritten signature in blue ink, appearing to read "Maurice Carey". The signature is fluid and cursive, with a long horizontal stroke at the end.
